

GENESEE COUNTY & FLINT HEALTH EQUITY BRIEF

AS OF DECEMBER 11, 2020

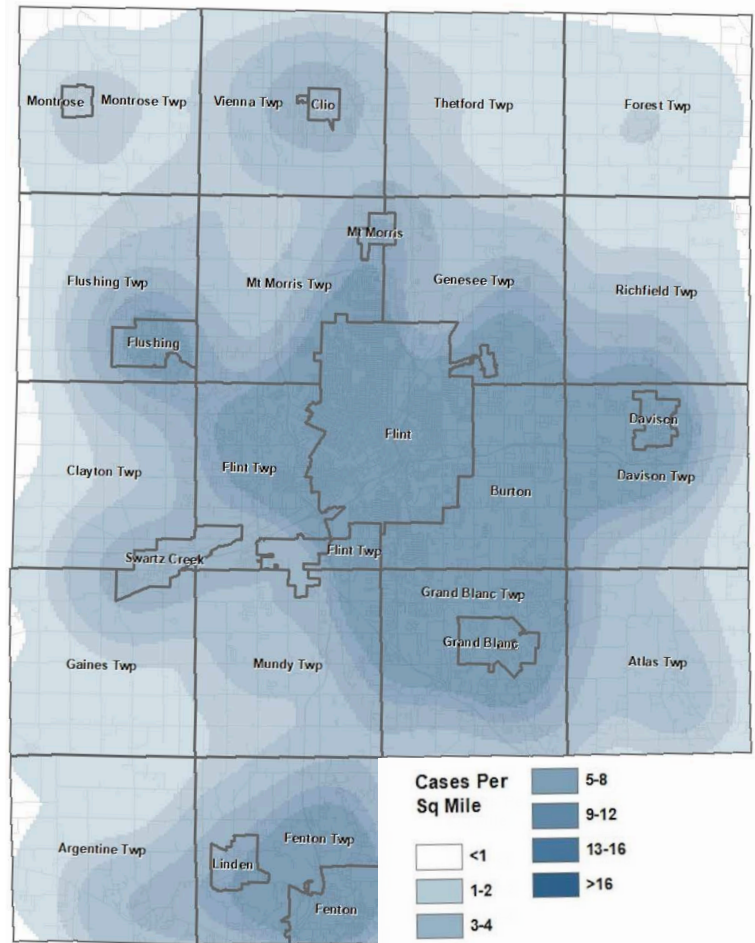

- **Rapid COVID spread continues** throughout Genesee County, outpacing Flint in rate of infection
- **Cases of unknown race persist** due to the volume of daily testing in Genesee County and Flint
- As racial disparities begin to trend upward, **equitable health care access is critical**

Current trends:

Geographic Spread in Genesee County October

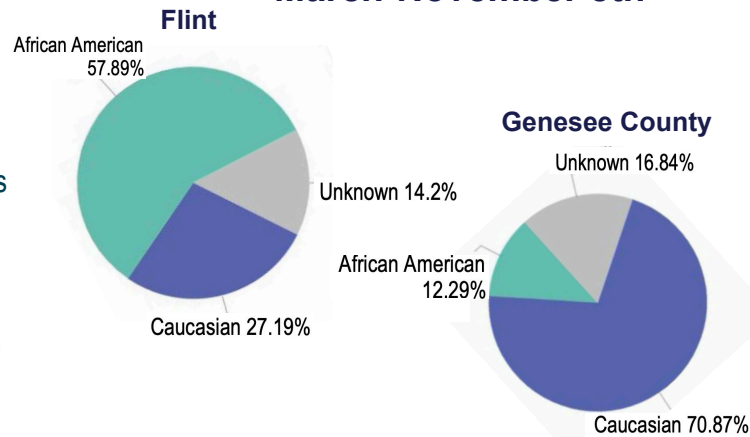

November

Recommendations

- 🏠 **Continued support for local federally qualified health centers to address racial disparities in Flint** (e.g., incentives, promotion, testing, treatment)
- 🛡️ **Safeguard policies that promote equitable care**, including eliminating cost sharing for Medicaid enrollees and sustaining telehealth services
- 📢 **Continue COVID education, prevention, and sanitation** in public and community settings
- 🗳️ **Advocate for additional resources to determine the full impact of holiday gatherings on racial disparities and community spread**
